Mahoning County Public Health to Offer Rabies Vaccination Clinic

A rabies vaccination clinic for dogs, cats, and ferrets will be offered at Angels for Animals.

- **Date:** Sunday, August 7, 2022
- **Time:** 1:00 PM – 3:00 PM
- **Place:** Angels for Animals
4750 W. South Range Road, Canfield, OH 44406

In Mahoning County, rabies vaccination is required for all dogs, cats, and ferrets over 3 months of age. Cost is \$8.00 per rabies shot (cash only). Pet owners must have their pets on a leash, in a cage, or carried inside a pillowcase. This is a low-cost clinic that does not include a physical examination of the animal. The veterinary staff reserves the right not to vaccinate any animal in the event the animal appears to be in poor health. To receive the 3-year booster, bring proof of prior rabies vaccination on or after August 7, 2021. Without proof of prior vaccination, the pet will receive a 1-year vaccination only. No appointment is necessary for Rabies Vaccinations.

[Rabies Vaccination Clinic Flyer](#)

Rabies is ever present in wildlife. It is a preventable, potentially deadly, viral disease most often transmitted through bites and scratches from unvaccinated pets, strays, and wildlife. Individuals can protect themselves and their families from rabies by following these guidelines:

- Vaccinate your pets.
- Maintain control of your pets to reduce their exposure to wildlife.
- Spay or neuter to decrease the number of stray animals.
- Avoid contact with wildlife and stray animals.
- Wash any animal bite areas thoroughly and follow up with a doctor.

Costs are kept to a minimum through a sponsorship from Mahoning County Public Health and volunteer services provided by Mike Sabihi, D.M.V. and Angels for Animals.
