LAKE NEWPORT Week 12 Results (sampled 10/14/15)

The Mahoning County District Board of Health has sampled and received results from the testing of Lake Newport. Samples were collected from the three original testing locations and the six additional exploratory sites throughout the Mill Creek Park Watershed. “The collection on Wednesday concludes the 12 week testing program. This week’s results are significantly lower than the October 5th and October 7th test results. The Board of Health will now take the time to review and analyze the results in their entirety in order to provide the MetroParks with beneficial data.” said Ryan Tekac, Director of Environmental Health for the Mahoning County District Board of Health.

Wednesday (10/14/15) Results
