LAKE NEWPORT Week 8 Results (sampled 9/16/15)

The Mahoning County District Board of Health has sampled and received results from the testing of Lake Newport. Samples were collected from the three original testing locations and six additional exploratory sites throughout the Mill Creek Park Watershed. “The additional samples will continue to be collected in an attempt to isolate areas that may have contributed to the elevated E coli levels in previous testing weeks.” said Ryan Tekac, Director of Environmental Health for the Mahoning County District Board of Health. The Mahoning County District Board of Health will continue testing weekly through the last week of October 2015.
